

INTERNSHIP IN **PROCESS ENGINEERING.**

full-time

GIEBEL FilTec GmbH designs and produces aeration dryers for hydraulic units, gearboxes, storage tanks and drums & IBCs and is one of the most important suppliers in this niche market.

We would like to expand our team and are looking for a committed intern for process engineering (m/f/d) - full-time in Bretzfeld (Germany).

YOUR **PROFILE.**

You are a soon-to-be process engineer and would like to work with us as part of an internship to further develop the GIEBEL Xdry® desiccant mixture, carry out and document test series.

THE **TASKS.**

- Research on the subject of desiccants
- Implementation and documentation of test series
- Procurement of test components
- Evaluation of test results

Are you interested? Then we look forward to receiving your **application including CV addressed to info@gf-dry.de**, contact person: Mr. Heinrich Laas.
